# Introduction

This directory is published utilizing the federation website to gather information ([www.urnca.org](http://www.urnca.org)). Among other benefits, using the website allows churches to update their information directly and provides for immediate distribution of their updated information. We encourage you to visit the federation website and acquaint yourself with it. Because we are using this method, the directory will take different forms than it has in the past. This is an “archive edition,” which is a compilation of federation information for 2010 and statistics for the year 2009. There is also a “current edition,” which contains the latest information as churches perform updates; it will differ from the archive edition in that information is as up-to-date as provided by the churches. The archive edition will be available for reference in the future. In both cases it is the responsibility of the churches to make the information available to their membership as this is private information which can only be accessed by having each church use their own unique username/password.

This year, as in previous years, has seen growth in terms of the number of churches that are now associated with our Federation. In 2008 we listed 106 churches and 2009 listed 111 churches. In this directory we have published information on 112 churches.

Membership statistics reflect that new families, professing members, and baptized members have been added. Our overall membership total of professing and baptized members was 23,302 last year for which we can be thankful. 2 Peter 3: 18 “But grow in the grace and knowledge of our Lord and Savior Jesus Christ. To him be glory both now and forever! Amen.”

To God be the glory,  
Mr. Bill Konynenbelt, Stated Clerk
